

SMOOTHI CS

VERY EARLY MAIZE

BENEFITS

SECURING FODDER STOCKS

VERY GOOD LODGING TOLERANCE

HIGH-QUALITY FEED

IDENTITY CARD

- Kernel type:** Flint-dent
- Registered:** European Catalogue
- Accumulated temperatures:**
 - Silking date: 870°
 - Fodder (32% DM): 1440°

MORPHOLOGY

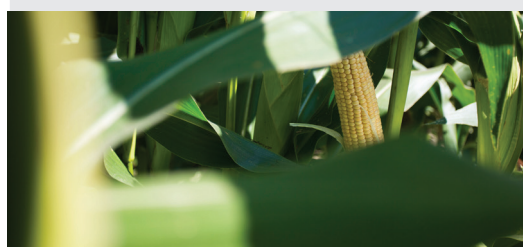

- Tall height and average ear insertion**

YIELD COMPONENTS

CULTURE TIPS

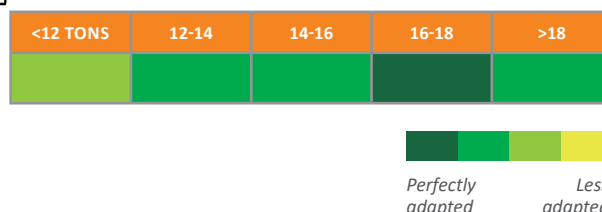

- **Medium potential location:**
 - 105,000 seeds/ha
- **High potential location:**
 - 110,000 seeds/ha
