

ES SKYTOWER

MID-EARLY MAIZE

BENEFITS

LEAFY HYBRID WITH VERY HIGH SILAGE YIELD

TALL PLANT WITH GOOD GREEN MASS

IDENTITY CARD

- Kernel type:** Flint
- Registered:** European Catalogue
- Accumulated temperatures:**
 - Silking date: 900°
 - Fodder (32% DM): 1570°

MORPHOLOGY

- Tall height and high ear insertion**

YIELD COMPONENTS

Rows/ear
14

Kernels/row
31

TKW
315

CULTURE TIPS

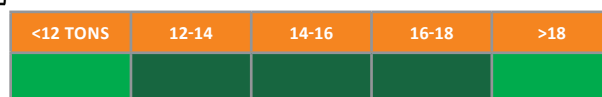

- **Medium potential location:**
 - 80,000 seeds/ha
- **High potential location:**
 - 92,000 seeds/ha
