LID IRUN

BENEFITS

GOOD SOIL COVER AND GOOD TILLERING CAPACITY

- Easy weeds management
- Large number of ears

VERY PRODUCTIVE

Production of a large number of grains per m2 based on a large number of ears and remarkable ear fertility.

GOOD DISEASES TOLERANCE

Good behaviour against mildew, rusts and septoria for a secure harvest.

DENTITY CARD

- **Registration:** 2021
- **Technological class:** bread wheat type A
- **Ø** Alternativity: 3 winter to mid winter
- Earliness of bolting: 3 Medium late to medium early
- Earliness of earing: 6 Medium late to medium early
- **Ø** Ear type: no awned

CULTURE TIPS

- Recommended in north and central Europe
- Suitable for early to intermediate sowing
- Optimisation of high yield potential on deep soils
